April 17 – April 21

Theme – Spring

This week in **Concept** we will discuss the season of Spring. We will be gardening in our sand table with shovels, rakes and flowers (plastic of course). Talk about the temperature, weather, the growth of flowers, bugs and animals will be done at circle time. (But we refuse to add snow!) Exploration of our tactile bag will include comparing and contrasting a garden glove and a mitten.

This week in **Language Arts** we will be talking about Spring. We will discuss the weather, how plants and trees bud and grow, and what animals and birds do this time of year.

Flowers In a Row

Out in the garden early in the springtime,
See the pretty flowers all in a row (hold up fingers)
See the little bees flying down to greet them (other hand fingers are bees)
Buzz, buzz, buzz, buzz, off they go!

During **Motor** time, we will be working on the ball and wand, following directions games and going outdoors as long as the weather permits.

In **Craft** and **Writing** this week we have papers for review of all the letters and numbers we have introduced so far. We have Spring crafts and papers to keep us busy getting ready for the warmer weather. We will also work on name tracing and printing.

HAPPY SPRING!
