Topic: Birds    Week 37    April 24-28

**Proverb:** Practice makes perfect.

**Fable:** The Quack Frog

**Moral:** Cheating is always found out.

**Vocabulary:** benevolent – kind, big hearted, doing good

## Language Arts

We will review vowels, silent e words, compound words, blends and diagraphs. Another writing project is planned to fine-tune those printing skills. Shhhhh... a Mother's Day project is underway.

## Parent Information

Our Spring/Graduation Program is scheduled for Saturday, May 20<sup>th</sup> at 11:30 a.m. The program will be held at Prairie Junior High in Alsip. I have passed out your child's lines to practice, please let me know if you did not get them.

## Concept

Our theme this week is birds. We will discuss which birds are commonly found on our backyards as well as more exotic birds found elsewhere. Ms. Mistina will teach the children about different habitats, migration and how different types of nests are made. Our papers and crafts for the week will help to reinforce our theme.

We will review addition, subtraction, fractions, money and place value.

The children are really having a great time earning and spending their money. This has been a great, fun way to reinforce this concept.

## Teacher Appreciation Week May 1-5

Our class found a really fun website called ABCya.com and it is filled with fun Math and English games. We have been having a lot of fun with the money counting games.
