

# Kindergarten Knowledge

Weeks 6 & 7 September 24th-28th & October 1st-5th, 2018

Theme: Fall

## Language Arts:

Words will be made and sounded out as we work on

the word families “ap” and “ip”. The letters Kk, Ll, Mm & Nn will be printed and sounded out as well as reviewing the letters A-J. I will work on reading stories with each child as new ones are introduced.

## Craft:

Fall is on the way and the boys and girls will enjoy making fall crafts and reinforcing color words.

## Math/Science

Reviewing with the numbers 1-10 and patterns will be some of our math activities this week. The geometric shapes cube, cylinder, cone and sphere will be reviewed as we look for these around the classroom. We will be learning that objects have different weights. To reinforce this concept we will be using academic terms

such as scale, balance, weight, heavier and lighter. We will continue to rote count to 100, and also by 10's.
