

BOBBIE NOONAN'S CHILD CARE—JOLIET
WEEK #3 & 4 Sept. 2 to 13, 2019
DINOSAURS

This is one of the children's favorite weeks at school. Help us by sharing any dinosaur "stuff" you have at home. Pictures, books, figures or videos are welcome.

Thank you for those that participated in the "Sharing Box".

Mrs. Lori's language room: Mrs. Lori will take the children back to the ice age where they will discover DINOSAURS! The children will go on a dinosaur hunt and learn dinosaur names and characteristics. With the help of flannel board stories and body plays, the children will learn fun facts about dinosaurs. Story # 1 will be taught as well. Feel free to put the story words on flash cards to practice at home. with your child.

Mrs. Kris's concept room: As the children work off the shelves, they will use the Story bin, jobs for letters Cc, Dd, Ee and Ff, counting jobs and matching and sorting, color jobs. We will learn about carnivores and herbivores. For the science portion of class, the children will dig for dinosaur bones in the sand table. The science table will be introduced. Graphing and estimating will be taught. We'll erupt a volcano!

Mrs. B's craft and writing: The children will work on printing the letters Cc, Dd, Ee, and Ff. We will also trace the shapes circle and square. They will color a dinosaur paper and make a dinosaur art project. Everyday the children will be encouraged to print their names at the top of their papers. Remember when helping at home, only the first letter is upper case and they should start at the top. Also, watch to make sure they're holding the pencil properly.

INTRODUCING:

Cc

Dd

Ee

Ff

Circle

Square

Story #1

Run, run, Taffy
Apple
