Weeks 1 and 2: August 16th-20th & 23rd – 27th, 2021

Bobbie Noonan's Child Care

Themes: Getting Acquainted/Manners

947 East Division Lockport, IL 60441 (815)-838-2855

Language Arts:

The first two weeks of Kindergarten will be very busy as we work on the letters Aa, Bb, Cc, & Dd. Printing the letter and learning the phonetic sounds will be part of our daily activities and review. I will introduce six Bold Beginning reading stories, along with guided reading stories. If one comes home with your child, they have successfully read it to me. Please have them read it to you for extra practice.

Art: The boys and girls will have fun painting and coloring during these next two weeks.

Concept:

The children will keep track of the number of days they have been in school by using a number line and working on place values. These activities will reinforce place value and the children will be introduced to the golden beads. The beads are units of ones, tens, and hundreds. The class will work on the numbers 1, 2, 3, and 4 along with the corresponding number words.

Science:

Primary and secondary colors will be introduced. We will experiment by mixing two colors together to observe what happens.

Introductions:
