

# Pre K News

## Theme: Ocean Animals

April 25, 2022

Our discussions about the ocean and ocean animals will take us into the deep, dark sea.

On Tuesday, April 26, chick eggs will arrive at our school. For the following 21 days our discussions will be on the topic of **Embryology**. We will keep track of the peep's growth inside the egg, and monitor the daily temperature and humidity level so we have a successful hatch!

Mrs. Paula, Mrs. Karen, Mrs. Julissa and Ms. Vickie

**HAPPY BIRTHDAY**  
Amelia Farrell 4/27

**Language Arts:** This will be a very **egg-citing** week in the Pre K. Not only will we read many nature stories featuring ocean animals, our discussions will focus on the topic of Embryology. The children will be introduced to "chicken words" such as **pullet**, **cockerel**, **waddle** and **comb**. We will focus on the day happenings in the "chick world."

**Concept:** This week, the study of *Wind* will be conducted. Wind plays an important role in our world, as we will soon discover during the week. Wind is a factor in how high the waves are in the ocean and simple experiment will illustrate how we can move an object without touching it.

**Craft & Writing:** We are reviewing the alphabet, numbers, and colors this week. The children are creating their very own sharks and goldfish. Playdoh and cutting will help strengthen our fine motor skills.

**Motor:** Noonan's Team will be outside working on motor skills. Let's pretend to dive like dolphins and have relay races in our play area. Please dress for the morning temps.

### **Important Info**

May 16 & 17-Hearing and Vision testing. Don't forget to return you form!

May 25-Spring Show

May 30-Memorial Day, center closed

June 3-Last day of school.
