Concept

Pets are always a fun subject to work with. This week we will be graphing and counting our pets in our home.

I will also do an activity of comparing pets vs non pets. As we review this week we will practice number order, shape recognition, and lacing. We will continue our daily work on our concept job baskets as well!

Language Arts

In language, we will continue working with our new letters C and D. I will be playing some review games with phonics and matching sounds to objects starting with the letters. We will continue practicing our site words together and with our reading stories. Another activity we work on is our color words. The students should be practicing color words all the time!
