

Pre-K Update

Week 10 Oct.16-20

Topic: Safety & Fire

Concept

We will measure distance using footsteps this week. First, they will estimate how many steps they think they will take going from the shelf to the wall, then see how close they came to the number.

A game of What's Missing? will help to sharpen the children's visual memory skills.

For science, we will grow a sweet potato plant! We will track the changes each week.

Craft and Writing

This week our readiness papers will focus on the letters Kk & Ll. The children will practice identifying these letters and learn their phonetic sound.

A fire safety coloring sheet and craft will be added to the fun.

Language Arts

Letters Kk and Ll will be introduced this week.

Fire safety pictures will "spark" our conversation.

Our daily phonics board will now include the letters A-L and we will have a fire fighter review.

Our Halloween Parties will be held on Oct. 30th and 31st.

The children are welcome to dress up. We do not allow candy, non-food treats are acceptable. 10 per child is sufficient.

What's New

Introductions: Kk & Ll, oval and rhombus

Expressive Vocabulary:

Keen: Sharp or quick in seeing, hearing or thinking.
Locate: To find the place or position of.

Manners: "Say I'm sorry"
"Do not cut into line"

Motor

The tumbling mat will be brought out for us to practice "get low and go" and "Stop, Drop, and Roll" to support our theme.

We continue to practice our hand/eye coordination with the use of the ball and wand.

The balance beam will be elevated on one end as the children attempt a heel/toe walk.

Stop

Drop

Roll
