

Two's News

Feb. 26-March 1

Topic: Shapes

Week 29

Language Arts:

Ms. Stephanie has many fun songs and fingerplays for the children this week. Among them are "Sally the Square" and "The Circle". We will discuss what shapes have three sides and what shapes have four sides. A shape hide and seek will end our week.

Concept:

Ms. Leah will keep the children busy as they explore a variety of textured shapes at the shape table. Our group activity will consist of sorting shapes of various shapes, sizes and colors. We will work hard on shape puzzles and shelf jobs.

Motor:

The children will enjoy getting into "shape" as they practice jumping from shape to shape. We will also use our shapes for target practice. The ball and wand will be enjoyed.

Craft and Writing:

Oval and rhombus will be decorated using a variety of mediums.

Other shapes such as circle, square, rectangle and triangle will be reviewed. All sorts of shapes will be created as we work with Play-Doh. We will mosaic using various shapes.
