

Kindergarten News

April 29 thru May 17, 2024

THEME: Insects & Butterflies

Our caterpillars have arrived!
We are witnessing first hand, the stages of metamorphosis.
Ask your child what they have learned so far. It is very exciting!!!

**Teacher Appreciation Week is the week of May 6.
Let's celebrate our great teachers!!**

The Kindergarten Scholastic testing will take place the week of May 6.
Please make sure your child gets a good night's sleep and a healthy breakfast!
Testing will begin around 9:30am.

Craft and Writing

During the next two weeks, the children will make a butterfly, dragonfly, a bumblebee and other insect crafts. They will also write about their favorite insect and label the parts of an insect.

Math/Science

In Math, the children will continue to measure items using their rulers.
In Science, the children will learn interesting facts about insects and butterflies, learn about the different parts of an insect, and learn about how insects live and survive outside.

Language

Stories about insects and butterflies will add to our theme. We will learn vocabulary words that relate to butterflies and insects. Marching around the alphabet will help with letter review and every day the children will work on creating their Animal Alphabet book.
