Weeks 36 & 37 April 15–26, 2024

Birds and Earth Day

INTRODUCING: Spelling words

LANGUAGE AND READING:

The children will continue to practice neat and proper printing along with writing skills. We have reading comprehension papers to work on and diagraphs and blends readiness papers. We will continue to read individually every day.

We have many books to read about Earth Day and birds. We are going to fill our brains with many fun facts!

CONCEPT:

We will watch and see how birds make their nests. We will make a bird feeder out of cheerios and pipe cleaners. As we discuss our planet Earth, the children will learn how to reduce, reuse and recycle!

In the pre-kindergarten class, the eggs have been placed in the incubator. 21 days until they hatch! We can't wait to see what happens.

CRAFT AND WRITING:

We will write about how to save our Earth in our journals. We will also write about spring and our favorite spring things. The children will continue to work on inventive spelling and stretching the words out to hear all the letter sounds.

We will be painting the Earth on Earth Day. We will also be creating all different types of birds.

PARENT NOTES:

Picture Day will be on Thursday April 18. We will take spring pictures and cap and gown pictures.

On Monday, April 22, we will celebrate Earth Day! Wear blue and green to represent our earth.
