

# Two's News

Week 37 April 22-26 Topic: The Farm

Bits of Intelligence: Sea Creatures  
Introductions: 9 and 10

**Concept:** Ms. Leah is so excited to have some farm week fun! The children will sort animals into categories such as big/small and mama/baby. Farm toy play and exploration will happen in our block area. Ms. Leah has a fun color review game where the children match the pigs' curly tail to the matching color behind. We will also review numbers using an apple picking game.

**Craft and Writing:** Mrs. Nicole will keep our farmers very busy this week. The children will have some sensory fun while making a muddy pig. Fine motor skills will be put to the test as the children practice proper pencil grip. All of the children will work on a group farm project throughout the week. Numbers 9 & 10 and a farm craft are on the agenda as well.

**Language Arts:** "Five Little Ducks" and "Five Muddy Pigs" are just two of the flannel board stories Ms. Stephanie will introduce this week. Farm toys will be used as the children sing along to their favorites "Old MacDonld and many other farm songs.

**Motor:** The teachers will get the children movin' and groovin' to our morning dances. We hope Mr. Sun comes out soon so we can play outdoors.

*Teacher Appreciation Week*

*May 6-10*
